AMB

Financial Corp.

2024 Annual Report

President's Message
To Our Stockholders:

On behalf of AMB Financial Corp. (the Company), and its wholly owned subsidiary, American Community Bank of Indiana (the Bank or American Community Bank), I am pleased to present our 2024 annual financial report.

Financial highlights:

- Net income available to common shareholders totaled $2.5 million for 2024 as compared to $2.2 million for 2023, representing an increase of $269 thousand, or 12.3%.
- Diluted earnings per share available to common shareholders totaled $2.73 per share for the year ended December 31, 2024, compared to $2.41 per share for 2023.
- Total assets of the Company increased $20.3 million to $372.8 million at December 31, 2024, from $352.4 million at December 31, 2023.
- Net loans receivable decreased $13.0 million to $282.1 million at December 31, 2024, from $295.1 million at December 31, 2023.
- Deposits increased $35.6 million to $336.1 million at December 31, 2024, from $300.4 million at December 31, 2023.
- Non-accrual loans and classified substandard assets increased $179 thousand to $2.3 million at December 31, 2024, from $2.2 million at December 31, 2023. As of December 31, 2024, and 2023, the Company did not hold any other real estate owned.
- The book value per common share outstanding at December 31, 2024, was $34.28.
- The Bank's Tier 1 leverage capital ratio, risked-based common equity Tier 1 capital ratio, Tier 1 capital ratio, and risk-based total capital ratios of 8.80%, 11.28%, 11.28%, and 12.49%, respectively, at December 31, 2024, exceeded all regulatory requirements and categorize the Bank as well capitalized under applicable regulations.

Our financial performance and stock performance are available on our website at https://www.acbanker.com. I urge you to visit our site to view this information and utilize its other services.

The entire staff of the Bank and the Company appreciate your commitment and support.

Sincerely,

Michael Mellon
President / CEO

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

General. AMB Financial Corp. (the "Company") is the bank holding company for American Community Bank of Indiana, (the "Bank") a State of Indiana chartered commercial bank. Collectively, the Company and the Bank are referred to herein as the "Company."

The Company's primary market area consists of the northwest portion of Lake County, Indiana. Business is conducted from our main office at 7880 Wicker Avenue, St. John, Indiana, as well as our four full-service banking offices located in Munster, Dyer, Hammond, and Crown Point, Indiana. The Bank is a community-oriented institution whose business consists primarily of accepting deposits from customers within its market area and investing those funds in mortgage loans secured by residential and non-residential real estate as well as non-real estate commercial and consumer loans. The Company also invests in mortgage-backed and other investment securities.

The Company's results of operations are primarily dependent on net interest income, which is the difference between the interest income on its interest-earning assets, such as loans and securities, and the interest expense on its interest-bearing liabilities, such as deposits and borrowings, and to a lesser degree, non-interest income and non-interest expense. Net interest income depends upon the volume of interest-earning assets and interest-bearing liabilities and the interest rate earned or paid on them, respectively. When the Company’s non-performing assets increase, our volume of interest-earning assets declines, adversely impacting net interest income. Non-interest income primarily consists of fees on deposits and loan products, increase in cash surrender value of life insurance, rental income, income or losses from other real estate owned operations, and gains on the sale of loans. The Company's non-interest expenses primarily consist of employee compensation and benefits, professional and legal fees, occupancy and equipment expenses, data processing service fees, federal deposit insurance premiums, and other operating expenses.

The Company's results of operations are also affected by general economic conditions, the monetary and fiscal policies of Federal agencies, and the policies of agencies that regulate financial institutions. Future changes in applicable laws, regulations, or government policies, which are likely, may have a material impact on the Company. Lending activities are influenced by the demand for real estate loans and other types of loans, competition among lenders, the general level of real estate values, the level of interest rates, and the availability of funds. Deposit flows and costs of funds are influenced by prevailing market interest rates, account maturities, and the levels of personal income and savings in the Company's market area.

Status as Non-Reporting Company. We are not subject to the reporting requirements of Section 13 of the Securities Exchange Act of 1934 and accordingly, this report has not been prepared in accordance with applicable Securities Exchange Commission rules. This report is intended to cover the year ended December 31, 2024, and should not be read to cover any other periods.

Forward-Looking Statements. The Company and the Bank may from time to time make written or oral “forward-looking statements.” These forward-looking statements may be included in this Annual Report, which are made in good faith by us. These forward-looking statements include statements about our beliefs, plans, objectives, goals, expectations, anticipations, estimates, and intentions that are subject to significant risks and uncertainties, and are subject to change based on various factors, some of which are beyond our control. The words “may,” “could,” “should,” “would,” “believe,” “anticipate,” “estimate,” “expect,” “intend,” “plan” and similar expressions are intended to identify forward-looking statements. The following factors, among others, could cause our financial performance to differ materially from the plans, objectives, expectations, estimates, and intentions expressed in the forward-looking statements:

- The current condition of the United States economy in general and in our local economy (including unemployment) in which we conduct operations;
- the effects of, and changes in, trade, monetary and fiscal policies, and laws, including interest rate policies of the Federal Reserve Board and the United States Treasury (“UST”);
- our ability to manage and reduce our non-performing assets;
- our ability to repay our holding company debt, including our $3 million of trust preferred stock, when due;
- the impact of new laws and regulations on financial institutions, the lending market, and our regulatory agencies;
- the impact of new regulations imposed by the Federal Reserve System, the Federal Deposit Insurance Corporation (“FDIC”) and the State of Indiana Department of Financial Institutions;
- future deposit premium levels;
- future loan underwriting and consumer protection requirements including those issued by the Consumer Financial Protection Bureau;

- inflation, interest rate, market, and monetary fluctuations and their impact on our interest rate-sensitive balance sheet;
- the future financial strength, dividend level, and activities of the FHLB of Indianapolis in which we own stock and from which we borrow money;
- the timely development of and acceptance of our new products and services and the perceived overall value of these products and services by users, including the features, pricing, and quality thereof compared to competitors' products and services;
- the willingness of users to substitute our products and services for products and services of our competitors;
- our ability to reinvest our cash flows in today's interest rate environment;
- our success in gaining regulatory approval for our products and services, when required;
- the impact of changes in financial services' laws and regulations (including laws concerning taxes, banking, securities, and insurance);
- the impact of technological changes;
- competition from other financial service providers in the Company's market area;
- the success of our executives in managing our business operations;
- the success of our loan restructuring and work-out arrangements;
- our ability to accurately estimate the value of our assets and the appropriate level of our allowance for credit losses;
- future changes in consumer spending and saving habits; and
- our ability to lease space in our branch facilities when vacancies occur.

The list of important factors stated above is not exclusive. We do not undertake to update any forward-looking statement, whether written or oral, that may be made from time to time by or on behalf of the Company or the Bank.

Operating Strategy. The Company's mission is to maintain its focus as an independent, community-oriented financial institution focused on serving customers in its primary market area. The Board of Directors has sought to accomplish this mission through an operating strategy designed to maintain capital in excess of regulatory requirements, and to manage, to the extent practical, the Company's loan delinquencies and vulnerability to changes in interest rates. The key components of the Company's operating strategy are to: (i) focus its lending operations on the origination of loans secured by one-to-four family residential real estate; (ii) supplement its one-to-four family residential lending activities with non-residential, home equity, multi-family, construction, and business loans in our market area; (iii) augment its lending activities with investments in mortgage-backed and other securities; (iv) emphasize adjustable-rate and/or short and medium duration assets when market conditions permit; (v) build and maintain its regular savings, transaction and money market accounts; and (vi) increase, at a managed pace, to the extent practicable, the volume of the Company's assets and liabilities.

Financial Condition. Total assets of the Company were $372.8 million on December 31, 2024, an increase of $20.3 million or 5.8%, from $352.4 million on December 31, 2023.

Cash and cash equivalents, which consist primarily of interest-earning deposits, totaled $56.5 million on December 31, 2024, an increase of $33.5 million or 145.4%, from $23.0 million on December 31, 2023. Cash and cash equivalents can fluctuate significantly on a day-to-day basis due to cash demands, customer deposit levels and loan and investment activity.

Investment securities, available for sale, increased $973.0 thousand or 7.0%, to $15.0 million on December 31, 2024, from $14.0 million on December 31, 2023. The increase in investment balances was the result of purchases. The Company recorded an unrealized loss on available-for-sale investment securities of $1.3 million on December 31, 2024, compared to a $1.3 million unrealized loss on December 31, 2023. The change was due to a decrease in market interest rates. These amounts are included as part of the carrying cost of investment securities, available for sale, at each respective period.

The Bank is a member of the FHLBI and had a $2.9 million investment in stock of the FHLBI on December 31, 2024 a decrease of $542 thousand or 15.8%, from $3.4 million on December 31, 2023. Members are required to own a certain amount of stock based on the level of borrowings, participation in the FHLBI mortgage purchase program, and other factors. The investment is carried at par value, as there is not an active market for FHLBI stock.

Gross loans receivable totaled $285.4 million on December 31, 2024, a decrease of $13.1 million or 4.4%, from the $298.5 million balance on December 31, 2023. Loans held for sale totaled $221 thousand on December 31, 2024, a decrease of $71 thousand or 24.3%, from the $292 thousand balance on December 31, 2023. The Company originated $22.3 million of loans held for sale which were subsequently sold during the twelve month period ended December 31, 2024, as compared to $25.3 million during the prior year period. The decrease in loan sales is primarily due to the continued higher loan interest rates which has reduced refinancing activity. Loans originated for sale are fixed-rate, single-family mortgage loans, which are sold to manage interest rate risk and generate fee income.

The allowance for credit losses ("ACL") is an estimate of the expected credit losses on the loans held for investment. Loan losses are charged against the ACL when management believes the uncollectibility of a loan balance is confirmed. Subsequent recoveries, if any, are credited to the ACL.

The ACL methodology consists of measuring loans on a collective (pool) basis when similar characteristics exist. The Company has identified five loan portfolio segments and measures the ACL using the Scaled CECL Allowance for Losses Estimator ("SCALE") method. The loan portfolios are construction and land real estate, commercial real estate, residential real estate, commercial, and other consumer loans. The SCALE method uses publicly available data from Schedule RI-C of the Call Report to derive the initial proxy expected lifetime loss rates. This proxy expected lifetime loss rates are then adjusted for bank-specific facts and circumstances to arrive at the final ACL estimate that adequately reflects the Bank's loss history and credit risk within the loan portfolio.

The qualitative factors applied to each loan portfolio consist of the impact of other internal and external qualitative and credit market factors as assessed by management through a detailed loan review, ACL analysis, and credit discussions.

The impact of the above listed internal and external qualitative and credit market risk factors is assessed within predetermined ranges to adjust the ACL totals calculated. In addition to the pooled analysis performed for the majority of the Company's loan balances, the Company also reviews loans that have collateral dependency or nonperforming status which requires a specific review of that loan, per the Company's individually analyzed CECL calculations.

Prior to the implementation of ASU 2016-13 (CECL) on January 1, 2024, the allowance for credit losses was subject to the guidance included in ASC 310 and ASC 450. Under that guidance, the Company was required to use an incurred loss methodology to estimate credit losses that were estimated to be incurred in the loan portfolio and that could ultimately materialize into confirmed losses in the form of charge-offs. The incurred loss methodology was a backward-looking approach to loss recognition and was based on the concept of a triggering event having taken place, causing a loss to be inherent within the portfolio. Additionally, loans that were identified as impaired under the definition of ASC 310, were required to be assessed on an individual basis. The allowance for credit losses and resulting provision expense levels for comparative periods presented were estimated in accordance with these requirements.

The allowance for credit losses totaled $3.2 million on December 31, 2024, a decrease of $100 thousand or 3.0%, as compared to $3.3 million on December 31, 2023. The Bank’s allowance for loan losses to total loans was 1.13% on December 31, 2024, as compared to 1.12% on December 31, 2023. Management believes that the allowance for credit losses is adequate to meet current expected losses in the portfolio. While management uses available information to recognize losses on loans, future additions to the ACL may be necessary based on changes in peer group information and loan portfolio conditions.

Risk Classification of Loans. The Company’s policies, consistent with regulatory guidelines, provide for the classification of loans and other assets that are of lesser quality as substandard, doubtful, or criticized assets designated as special mention.

A substandard asset is inadequately protected by the current sound worth and paying capacity of the obligor or of the collateral pledged, if any. Assets so classified must have a well-defined weakness, or weaknesses, which jeopardize the liquidation of the debt. They are characterized by the distinct possibility that the Bank will sustain some loss if the deficiencies are not corrected. Risk rating guidance clarifies that a loan with a well-defined weakness does not have to present a probability of default for the loan to be rated substandard and that an individual loan’s loss potential does not have to be distinct for the loan to be rated substandard. An asset classified doubtful has all the weaknesses inherent in one classified substandard with the added characteristic that the weaknesses make collection or liquidation in full, based on currently existing facts, conditions, and values, highly questionable and improbable. Assets classified as loss are those considered uncollectible and of such little value that their continuance as assets is not warranted; such balances are promptly charged-off as required by applicable federal regulations. A special mention asset has potential weaknesses that deserve management’s close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the asset or in the institution’s credit position at some future date. Special mention assets are not adversely classified and do not expose an institution to sufficient risk to warrant adverse classification.

Based on a review of the Company’s classified assets, loans classified substandard as well as other real estate owned increased $2.3 million to $2.2 million on December 31, 2024, as compared to December 31, 2023.

Non-Performing Loans. Non-performing loans, which consist primarily of those nonaccrual loans that are past due ninety days or more as well as loans less than ninety days past due for which the collectability of principal and interest is in doubt, totaled $2.3 million, or 0.82% of total loans receivable at December 31, 2024, compared to $2.2 million, or 0.72% of total loans receivable at December 31, 2023.

Potential Problem Loans. The Company defines potential problem loans as performing loans rated substandard, which do not meet the definition of a non-performing loan. The Company does not necessarily expect to realize losses on potential problem loans but does recognize that potential problem loans carry a higher probability of default and require additional attention by management. As part of its loan review process, the Company evaluates a borrower's financial condition as well as the underlying collateral's cash flows to determine the appropriate loan grade/classification. The Company reviews nonresidential real estate loans, commercial business loans, and multiple non-owner occupied single-family loans made to the same borrower to determine if these loans should be classified. As a result of these reviews, no potential problem loans were classified as performing substandard on December 31, 2024, and December 31, 2023.

The ratio of allowance for credit losses to classified and criticized loans was 138.5% on December 31, 2024, compared to 154.7% on December 31, 2023.

Office properties and equipment totaled $9.2 million on December 31, 2024, a $287 thousand decrease from the balance on December 31, 2023. The decrease represents normal depreciation of $503 thousand, offset, in part, by additions totaling $217 thousand.

Bank owned life insurance increased $58 thousand to $3.1 million on December 31, 2024. The change represents an increase in the cash surrender value of the life insurance policies. The policies were purchased in connection with deferred compensation plans utilized by directors and officers of the Company.

Prepaid expenses and other assets decreased $351 thousand to $2.2 million on December 31, 2024.

Total deposits increased by $35.6 million to $336.1 million on December 31, 2024. The increase in deposits during the period was due to a $9.5 million increase in certificate of deposits, a $22.0 million increase in money market accounts, and a $4.2 million increase in checking deposits, offset, in part by a $147 thousand decrease in savings accounts. At December 31, 2024, the Bank's core deposits (passbook, checking and money market accounts) comprised $245.1 million, or 73.1% of deposits, compared to $219.1 million, or 73.1% of deposits, on December 31, 2023. Most of the Bank's deposits are derived from core client sources, relating to long-term relationships with local individuals, businesses, and municipal entities. The Company does not utilize brokered deposits.

Borrowed money, which consists of FHLBI advances, totaled $0 on December 31, 2024, as compared to $17.0 million on December 31, 2023. During the current period, the Company repaid $17.0 million in advances from the FHLBI.

The Company's trust preferred subordinated debentures remained unchanged totaling $3.1 million on December 31, 2024. The interest rate payable on the debentures adjusts quarterly to the three-month SOFR plus 1.65% and was 6.27% on December 31, 2024. These debentures have a contractual maturity date of June 15, 2037, and the Company has the right to redeem the debentures, in whole or in part, on any interest payment date.

Other liabilities decreased $369 thousand totaling $2.9 million on December 31, 2024, as compared to $3.3 million on December 31, 2023.

Total stockholders' equity increased $2.1 million to $30.7 million, or 8.24% of total assets on December 31, 2024, compared to $28.7 million, or 8.13% of total assets, on December 31, 2023. The increase in stockholders' equity was attributable to $2.5 million of net income for the twelve-month period ended December 31, 2024, a $61 thousand increase in paid-in-capital, cash dividends of $217 thousand paid to common shareholders, a $67 thousand decrease in the unrealized loss on available for sale securities, net of tax, and a $167 thousand increase in treasury stock. The number of common shares outstanding on December 31, 2024, totaled 896,243 as compared to 904,276 at December 31, 2023. During the twelve month period ended December 31, 2024, the Company repurchased 9,949 common shares at an average cost of $19.12 per share. The shares were retired as treasury stock. The book value per common share outstanding on December 31, 2024, was $34.28. The Bank's Tier 1 leverage capital ratio, risked-based common equity Tier 1 capital ratio, risk-based Tier 1 capital ratio, and risk-based total capital ratio percentages of 8.80%, 11.28%, 11.28%, and 12.49%, respectively, at December 31, 2024, exceeded all regulatory requirements and categorize the Bank as well capitalized under applicable regulations.

Comparison of the Results of Operations for the Twelve Months Ended December 31, 2024, and December 31, 2023

General. Net income for the twelve months ended December 31, 2024, was $2.5 million, or $2.73 per diluted common share, an increase of $269 thousand or 12.3%, compared to $2.2 million, or $2.42 per diluted common share, for the same period in 2023. The increase in the current twelve months net income compared to the prior year twelve months was the result of a $387 thousand increase in net interest income, a $527 thousand increase in release of reserve for credit loss expense, offset in part by a $243 thousand decrease in non-interest income, and a $303 thousand increase in the non-interest expense.

Analysis of Net Interest Income. Net interest income represents the difference between interest earned on interest-earning assets and interest paid on interest-bearing liabilities. Net interest income is affected by the relative amounts of interest-earning assets and interest-bearing liabilities, and the interest rates earned or paid on them.

The following table presents, for the periods indicated, the total dollar amounts of interest income from average interest-earning assets and the resultant yields, as well as the interest expense on average interest-bearing liabilities, expressed both in dollars and rates. No tax equivalent adjustments were made. All average balances were calculated using average daily balances and included non-accruing loans.

Yield Analysis

Year-to-Date *(Dollars in thousands)* *(unaudited)*	Average Balances, Interest, and Rates					
	December 31, 2024			December 31, 2023		
	Average Balance	Interest	Rate (%)	Average Balance	Interest	Rate (%)
ASSETS						
Interest bearing deposits in other financial institutions	$ 28,965	$ 1,416	4.89	$ 16,195	$ 740	4.57
Securities available-for-sale	13,313	362	2.72	16,131	398	2.47
Loans receivable	291,787	17,860	6.12	277,840	15,484	5.57
Federal Home Loan Bank stock	3,087	273	8.84	3,084	232	7.52
Total interest earning assets	337,152	$ 19,911	5.91	313,250	$ 16,854	5.38
Non interest-earning assets	14,979			12,730		
Total assets	$ 352,131			$ 325,980		
LIABILITIES AND STOCKHOLDERS' EQUITY						
Interest-bearing deposits	$ 266,481	$ 9,393	3.52	$ 238,344	$ 6,636	2.78
Borrowed funds	4,566	300	6.57	6,340	387	6.10
Total interest bearing liabilities	271,047	$ 9,693	3.58	244,684	$ 7,023	2.87
Non-interest bearing deposits	46,904			48,974		
Other noninterest bearing liabilities	4,469			4,399		
Total liabilities	322,420			298,057		
Total stockholders' equity	29,711			27,923		
Total liabilities and stockholders' equity	$ 352,131			$ 325,980		
Return on average assets	0.70%			0.67%		
Return on average equity	8.27%			7.84%		
Net interest margin (average earning assets)	3.03%			3.14%		
Net interest spread	2.33%			2.51%		
Ratio of interest-earning assets to interest-bearing liabilities	1.24			1.28		

Net interest income for the twelve months ended December 31, 2024, was $10.2 million, an increase of $387 thousand (3.9%), compared to $9.8 million for the twelve months ended December 31, 2023. The weighted average yield on interest-earning assets was 5.91% for the twelve months ended December 31, 2024, compared to 5.38% for the twelve months ended December 31, 2023. The weighted average cost of funds for the twelve months ended December 31, 2024, was 3.58% compared to 2.87% for the twelve months ended December 31, 2023. The impact of the 5.91% return on interest-earning assets and the 3.58% cost of funds resulted in an interest rate spread of 2.33% for the current twelve months, a decrease from the 2.51% spread for the twelve months ended December 31, 2023. The Company's net interest margin was 3.03% for the twelve months ended December 31, 2024, compared to 3.14% for the twelve months ended December 31, 2023.

(Release of) Provision for Reserve for Credit Losses. The Company recorded a $253 thousand release of reserve for credit losses for the twelve months ended December 31, 2024, as compared to a provision for reserve for credit losses of $274 thousand for the prior-year twelve months. The (release of) provision for reserve for credit losses is a function of the allowance for credit loss methodology used to determine the appropriate level of the allowance for inherent loan losses after adjusting for loan charge-offs and recoveries. Loan losses are charged-off against the allowance when it is believed that the loan balance, or a portion of the loan balance, is no longer realizable by the paying capacity of the borrower based on an evaluation of available cash resources and collateral value. Recoveries of amounts previously charged-off are credited to the allowance. The Company recorded net recoveries of $62 thousand for the twelve months ended December 31, 2024, compared to net recoveries of $79 thousand for the prior year twelve months ended December 31, 2023.

Non-Interest Income. Non-interest income decreased $243 thousand to $1.9 million for the twelve months ended December 31, 2024, compared to the prior year twelve months due to the following changes:

(dollars in thousands)	Twelve Months Ended December 31, 2024	Twelve Months Ended December 31, 2023	YTD $ Change	YTD % Change
Non-interest income:				
Loan fees and service charges	$ 607	$ 652	$ (45)	-6.9%
Deposit related fees	388	384	4	1.0%
Other fee income	12	65	(53)	-81.5%
Rental Income	337	291	46	15.8%
Gain on sale of loans	354	376	(22)	-5.9%
Increase in cash surrender value of life insurance	58	58	0	0.0%
Other income	115	288	(173)	-60.1%
Total non-interest income	$ 1,871	$ 2,114	$ (243)	-11.5%

Non-Interest Expense. Non-interest expense increased $303 thousand to $9.1 million for the twelve months ended December 31, 2024, compared to the prior year twelve months due to the following changes:

(dollars in thousands)	Twelve Months Ended December 31, 2024	Twelve Months Ended December 31, 2023	YTD $ Change	YTD % Change
Non-interest expense:				
Staffing costs	$ 4,861	$ 4,849	$ 12	0.2%
Advertising	419	414	5	1.2%
Occupancy and equipment expense	1,017	996	21	2.1%
Data processing	1,256	1,046	210	20.1%
Professional fees	373	267	106	39.7%
Federal deposit insurance premiums	282	246	36	14.6%
Insurance expense	116	93	23	24.7%
Other operating expenses	737	847	(110)	-13.0%
Total non-interest expense	$ 9,061	$ 8,758	$ 303	3.5%

Income Taxes. The Company recorded income tax expense of $823 thousand for the twelve months ended December 31, 2024, resulting in an effective tax rate of 25.1%, compared to income tax expense of $724 thousand, for an effective income tax rate of 24.9%, for the prior year twelve months. The increase in the current twelve months income tax expense was impacted by a $368 increase in net income before income taxes as compared to the prior year's period.

Qualitative and Quantitative Disclosure of Market Risk

The principal objectives of the Company's interest rate risk management activities are to: (i) define an acceptable level of risk based on the Company's business focus, economic and regulatory operating environment, capital and liquidity requirements, and performance objectives; (ii) quantify and monitor the amount of interest rate risk inherent in its asset/liability structure; and (iii) modify the Company's asset/liability structure, as necessary, to manage interest rate risk and net interest margins in changing rate environments. Management seeks to achieve these objectives through an analysis of the value of the Company's fair value of equity under different interest rate scenarios and the ratio of interest rate sensitive assets to interest rate sensitive liabilities within specified maturities or repricing periods. The Company does not currently engage in the use of off-balance sheet derivative instruments to control interest rate risk and management does not intend to engage in such activity in the immediate future.

Notwithstanding the Company's interest rate risk management activities, the potential for changing interest rates is an uncertainty that could have an adverse effect on the earnings and net asset value of the Company. When interest-bearing liabilities mature or reprice more quickly than interest-earning assets in a given period, a significant increase in market interest rates could adversely affect net interest income. Similarly, through the prepayment of higher rate long-term loans as well as the rapid repricing of our liquid assets, falling interest rates could result in a decrease in net interest income and net asset value. Also, changes in interest rates usually have an impact on the value of the Company's financial assets. Finally, a flattening or inversion of the "yield curve" (i.e., a narrowing of the spread between long- and short-term interest rates), could adversely impact net interest income to the extent that the Company's assets have a longer average term than its liabilities.

In managing the Company's asset/liability position, the Board and management attempt to manage the Company's interest rate risk while enhancing net interest margins. However, the Board of Directors generally believes that the increased net interest income resulting from a mismatch in the maturity of the Company's asset and liability portfolios can, during periods of declining or stable interest rates and periods in which there is a substantial positive difference between long- and short-term interest rates (i.e., a "positively sloped yield curve"), provide high enough returns to justify the increased exposure to sudden and unexpected increases in interest rates. As a result, the Company's results of operations and net portfolio values remain significantly vulnerable to increases in interest rates and to fluctuations in the difference between long- and short-term interest rates.

Presented below, as of December 31, 2024, and 2023, is an analysis of the Bank's interest rate risk as measured by changes in fair value of equity for parallel shifts in the yield curve in basis point increments for both the short and long end of the yield curve.

Fair Value of Equity (Unaudited)

		At December 31, 2024				At December 31, 2023			
		Fair Value of Equity /		Change		Fair Value of Equity /		Change	
Rate Shock	Rate Shift Type	Fair Value of Total Assets	Fair Value of Equity $	$	%	Fair Value of Total Assets	Fair Value of Equity $	$	%
			(dollars in thousands)				(dollars in thousands)		
+400/+400 bp	Instantaneous	8.49%	28,438	(16,370)	(36.53)	1.51%	4,528	(22,535)	(83.27)
+300/+300 bp	12 Months	9.80%	33,365	(11,443)	(25.54)	3.75%	11,490	(15,573)	(57.54)
+200/+200 bp	12 Months	10.70%	37,152	(7,656)	(17.09)	5.54%	17,432	(9,631)	(35.59)
+100/+100 bp	12 Months	11.41%	40,438	(4,370)	(9.75)	6.99%	22,557	(4,506)	(16.65)
Unchanged		12.36%	44,808			8.19%	27,063		
-100/-100 bp	12 Months	12.82%	47,459	2,651	5.92	9.70%	33,026	5,963	22.03
-200/-200 bp	12 Months	12.50%	46,885	2,077	4.64	10.87%	38,056	10,993	40.62

Certain assumptions in assessing interest rate risk were employed in preparing the preceding table. These assumptions relate to interest rates, loan prepayment rates, deposit decay rates, and the market values of certain assets under the various interest rate scenarios. Even if interest rates change in the designated amounts, there can be no assurance that the Bank's assets and liabilities would perform as set forth above. In addition, an increase or decrease in U.S. Treasury rates in the designated amounts, accompanied by a change in the shape of the Treasury yield curve, would significantly change the results set forth. Other types of market risk, such as foreign currency exchange risk and commodity price risk, do not arise in the normal course of the Company's business activities.

Liquidity.

The Company's primary sources of funds are deposits, borrowings, principal and interest payments on loans and investment securities, and proceeds from the sale of loans. While maturities and scheduled amortization of loans and securities provide a relatively predictable flow of funds, other sources of funds such as loan prepayments and deposit inflows are less predictable because of changes in interest rates, economic conditions, and competition.

The primary investing activities of the Company are the origination of loans for investment in the portfolio and for sale, and the purchase of investment securities. The Company experienced a net decrease in loans of $12.1 million during the year ended December 31, 2024, compared to a net increase in loans of $31.4 million during 2023. The Company experienced a net increase in investment securities of $818 thousand during the year ended December 31, 2024, compared to a net decrease in investment securities of $425 thousand during 2023.

The Company experienced a net increase in cash and amounts due from depository institutions deposits of $33.5 million during the year ended December 31, 2024, compared to a net decrease in cash and amounts due from depository institutions of $5.1 million during 2023. Proceeds from the repayment of investment securities totaled $1.9 million and $2.1 million, respectively for the years ended December 31, 2024, and 2023. The Company experienced a net increase in deposits of $35.6 million during the year ended December 31, 2024, compared to a net increase in deposits of $8.6 million during 2023. Borrowings consist of advances from the FHLBI and other entities. New borrowings totaled none during 2024, and $17.0 million for 2023. Total borrowings repaid totaled $17.0 million in 2024 and none in 2023.

The Company may borrow funds from the FHLBI subject to certain limitations. At December 31, 2024, based on the level of qualifying collateral available to secure advances, the Company had an unused borrowing capacity of $72.8 million. At December 31, 2024, the Company also had available $10.0 million of unsecured overnight federal funds borrowing capability from third party sources. In addition, the Company had available a $5.0 million line of credit with the FHLBI.

The Company's most liquid assets are cash and cash equivalents, which include highly liquid short-term investments, such as overnight deposits, that are readily convertible to known amounts of cash. The level of these assets is dependent on the Company's operating, financing, and investing activities during any given period. At December 31, 2024, and 2023, cash and cash equivalents totaled $53.3 million and $23.0 million, respectively.

The Company had unused construction and commercial lines of credit of $22.7 million, unused home equity lines of credit of $17.6 million, and has issued outstanding letters of credit on behalf of third parties totaling approximately $4.3 million at December 31, 2024. The Company anticipates that it will have sufficient funds available to meet its current loan originations and other commitments.

Certificates of deposit scheduled to mature in one year or less from December 31, 2024, totaled $86.4 million. Based on the Company's most recent experience and pricing strategy, management believes that a significant portion of such deposits will remain with the Company.

AMB Financial Corp (“AMB”) is the Holding Company of the Bank. The primary source of cash inflows for AMB is through dividend income derived from the Bank and to a lesser extent, income tax reimbursement payments from the Bank. The primary cash outflows are related to repayment of borrowed funds, income taxes, interest on borrowings, common stock repurchases, and operating expenses such as legal and administrative expenses. During 2024, AMB recorded cash inflows of $0.8 million and cash outflows of $0.8 million resulting in an increase of $16 thousand to cash and cash equivalents. During 2023, AMB recorded cash inflows of $0.9 million and cash outflows of $0.9 million resulting in a decrease of $30 thousand to cash and cash equivalents. Cash and cash equivalents totaled $2.0 million at both December 31, 2024, and 2023.

Capital Standards.

As a state chartered commercial bank, the Bank’s deposits are insured up to the applicable limits by the Federal Deposit Insurance Corporation (“FDIC”). The Bank is a member of the Federal Home Loan Bank (“FHLB”) of Indianapolis, which is one of the twelve regional banks comprising the FHLB system. The Bank is regulated by the FDIC and the State of Indiana Department of Financial Institutions. The Holding Company is regulated and examined by the Board of Governors of the Federal Reserve System (“FRB”). Such regulation and supervision establish a comprehensive framework of activities in which an institution can engage and is intended primarily for the protection of the insurance fund and depositors. The regulatory structure also gives the regulatory authorities extensive discretion in connection with their supervisory and enforcement activities. Any change in such regulation, whether by the FDIC, State of Indiana Department of Financial Institutions, the FRB, or Congress could have a material impact on the Company and its operations.

In July 2013, federal bank regulatory agencies issued a final rule that revised the leverage and risk-based capital requirements and the method for calculating risk-weighted assets to make them consistent with agreements that were reached by the Basel Committee on Banking Supervision and certain provisions of the Dodd-Frank Act. Among other things, the rule establishes a Tier 1 leverage adequately capitalized ratio of 4.0% (well capitalized ratio of 5.00%), a risked-based common equity Tier 1 adequately capitalized ratio requirement of 4.50% (well capitalized ratio of 6.50%), a risked-based Tier 1 adequately capitalized capital ratio requirement of 6.00% (well capitalized ratio of 8.00%) and a risk-based total capital adequately capitalized ratio of 8.00% (well capitalized ratio of 10.00%). The final rule also required unrealized gains and losses on certain “available-for-sale” securities holdings to be included for purposes of calculating regulatory capital requirements unless a one-time opt-in or opt-out is exercised. The Bank elected to opt-out regarding the aforementioned. The rule limits a banking organization’s capital distributions and certain discretionary bonus payments if the banking organization does not hold a “capital conservation buffer” consisting of 2.5% of common equity Tier 1 capital to risk-weighted assets in addition to the amount necessary to meet its minimum risk-based capital requirements.

This final rule became effective for the Bank on January 1, 2016. The capital conservation buffer requirement was fully phased in on January 1, 2019. The final rule maintains the continued exemption of consolidated capital requirements for bank holding companies, such as the Company.

The Bank may not declare or pay cash dividends on or repurchase any of its shares of common stock if the effect thereof would cause equity to be reduced below applicable regulatory capital requirements. The Bank declared and paid a cash dividend to the Company totaling $760 thousand during 2024 and 2023.

Impact of Inflation and Changing Prices

The consolidated financial statements and related data presented herein have been prepared in accordance with GAAP, which requires the measurement of financial position and operating results in terms of historical dollars without considering the changes in the relative purchasing power of money over time due to inflation. The impact of inflation is reflected in the increased cost of the Company's operations. Unlike industrial companies, nearly all the assets and liabilities of the Company are monetary in nature. As a result, interest rates have a greater impact on the Company's performance than do the effects of general levels of inflation. Interest rates do not necessarily move in the same direction or to the same extent as the price of goods and services.

Independent Auditor's Report

To the Audit Committee and the Board
of Directors
AMB Financial Corp. and Subsidiary

Opinion

We have audited the consolidated financial statements of AMB Financial Corp. and its wholly owned subsidiary, American Community Bank of Indiana (collectively, the "Company"), which comprise the consolidated balance sheet as of December 31, 2024 and 2023 and the related consolidated statements of income, comprehensive income, changes in stockholders' equity, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2024 and 2023 and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audits of the Consolidated Financial Statements* section of our report. We are required to be independent of the Company and to meet our ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern within one year after the date that the consolidated financial statements are issued or available to be issued.

Auditor's Responsibilities for the Audits of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that audits conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the consolidated financial statements.

To the Audit Committee and the Board
of Directors
AMB Financial Corp. and Subsidiary

In performing an audits in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the consolidated financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Supplemental Cash Flow Information		
Interest paid	$ 9,684	$ 7,002
Income taxes paid	727	876

See notes to consolidated financial statements.

Note 1 - Nature of Business

AMB Financial Corp. and Subsidiary (the "Company"), a Delaware corporation headquartered in St. John, Indiana, is the owner of all of the issued and outstanding capital stock of American Community Bank of Indiana (the "Bank"). The Bank is a State of Indiana commercial bank offering a full range of financial services to customers who are primarily located within northwest Indiana. The Bank is principally engaged in the business of attracting deposits from the general public and using such deposits to originate residential and commercial mortgage loans, as well as other types of consumer and commercial loans.

Note 2 - Significant Accounting Policies

Basis of Presentation and Consolidation

The consolidated financial statements (the "financial statements") include the accounts of the Company and its wholly owned subsidiary, the Bank. All significant intercompany balances and transactions have been eliminated in consolidation.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. Material estimates that are particularly susceptible to significant change in the near term relate to the determination of the allowance for credit losses on loans.

Cash and Cash Equivalents

For the purpose of the consolidated statement of cash flows, cash and cash equivalents include cash and balances due from depository institutions, interest-bearing deposits in other depository institutions, and federal funds sold that mature within 90 days.

Investment Securities

Debt securities that management has the positive intent and ability to hold to maturity are classified as held to maturity and reported at amortized cost. Securities bought and held principally for the purpose of selling in the near term are classified as trading securities and are reported at fair value, with unrealized gains and losses included in earnings. Securities not classified as held to maturity or trading are classified as available for sale and are reported at fair value, with unrealized gains and losses excluded from earnings and reported in other comprehensive (loss) income.

Purchase premiums and discounts are recognized in interest income using the interest method. For purchase premiums and discounts on equity securities and noncallable debt securities, the amounts are recognized into income over the term of the securities. For premiums on callable debt securities, the premium is amortized against income over the period until the earlier of the first call date or maturity.

Gains and losses on the sale of securities are recorded on the trade date and are determined using the specific identification method.

Note 2 - Significant Accounting Policies (Continued)

For available-for-sale debt securities in an unrealized loss position, the Company first assesses whether it intends to sell, or it is more likely than not that it will be required to sell, the security prior to the recovery of its amortized cost basis. If either of the above criteria is met, the security's amortized cost basis is written down to fair value through earnings. When the criteria above is not met, the Company evaluates whether the decline in fair value is the result of credit losses or other factors. In making this assessment, the Company reviews changes to the rating of the security by a rating agency, an increase in defaults on the underlying collateral, and the extent to which the securities are issued by the federal government or its agencies, including the amount of the guarantee issued by those agencies, among other factors. If this assessment indicates that a credit loss exists, the Company compares the present value of cash flows expected to be collected from the security with the amortized cost basis of the security. If the present value of cash flows expected to be collected is less than the amortized cost basis for the security, a credit loss exists and an allowance for credit losses is recorded through earnings, limited to the amount that the fair value of the security is less than its amortized cost basis. Any impairment that has not been recorded through an allowance for credit losses is recognized in other comprehensive (loss) income, net of taxes.

Changes in unrealized gain or loss for equity securities with a readily determinable fair value are recorded through earnings. Equity securities without a readily determinable fair value are evaluated for impairment with any impairment recorded through earnings.

Federal Home Loan Bank Stock

The Bank, as a member of the Federal Home Loan Bank of Indianapolis (FHLB), is required to maintain an investment in the capital stock of the FHLB. No ready market exists for the stock, and it has no quoted market value. The stock is redeemable at par by the FHLB and is, therefore, carried at cost and periodically evaluated for impairment. Dividends are recorded in income on the dividend date.

Loans Held for Sale

Loans originated and intended for sale in the secondary market are carried at estimated fair value, as determined by outstanding commitments from investors. Net unrealized losses, if any, are recognized in a valuation allowance and charged to earnings.

Loans Receivable

The Bank primarily grants commercial and mortgage loans to customers. A substantial portion of the loan portfolio is represented by mortgage loans throughout the northwest Indiana area. The ability of the Bank's debtors to honor their contracts is dependent upon the general economic conditions in this area.

Loans that management has the intent and ability to hold for the foreseeable future or until maturity or payoff are reported at their outstanding unpaid principal balances adjusted for charge-offs, the allowance for credit losses, and any net deferred fees or costs on originated loans. Interest income is accrued on the unpaid principal balance. Loan origination fees, net of certain direct origination costs, are deferred and recognized as an adjustment to the related loan's yield using the interest method. Loans are recorded net of $519 and $778 of net deferred fees as of December 31, 2024 and 2023, respectively.

The accrual of interest on loans is discontinued at the time the loan is 90 days delinquent unless the credit is well secured and in process of collection. In all cases, loans are placed on nonaccrual or charged off at an earlier date if collection of principal or interest is considered doubtful. All interest accrued but not collected for loans that are placed on nonaccrual or charged off is reversed against interest income. The interest on these loans is accounted for on the cash basis or cost-recovery method, until qualifying for return to accrual. Loans are returned to accrual status when all the principal and interest amounts contractually due are brought current and future payments are reasonably assured.

Note 2 - Significant Accounting Policies (Continued)

Loans are considered delinquent when customers fail to make their payments in accordance with the contractual loan agreement. If a loan matures and principal remains outstanding, the loan is considered delinquent until the loan is paid off or renewed.

Adoption of New Accounting Pronouncements

As of January 1, 2023, the Company adopted Financial Accounting Standards Board (FASB) Accounting Standards Update (ASU) No. 2016-13, *Financial Instruments - Credit Losses: Measurement of Credit Losses on Financial Instruments*, which superseded the prior guidance on the allowance for loan losses. The ASU was issued to provide financial statement users with more useful information about the expected credit losses on financial instruments held by a reporting entity at each reporting date to enhance the decision making process.

As a result of the adoption of the ASU, the Company recorded a reduction to retained earnings of $517 as of January 1, 2023 as a cumulative effect of change in accounting principle. The transition adjustment included an increase to the allowance for credit losses on loans of $272, the recording of the unfunded commitment liability of $415, and a corresponding increase in deferred tax assets of $170.

In March 2022, the FASB issued ASU No. 2022-02, *Financial Instruments - Credit Losses (Topic 326): Troubled Debt Restructurings and Vintage Disclosures*. The amendments in this update eliminate the accounting guidance and related disclosures for TDRs by creditors in Subtopic 310-40, *Receivables - Troubled Debt Restructurings by Creditors*, while enhancing disclosure requirements for certain loan refinancings and restructurings by creditors when a borrower is experiencing financial difficulty and requiring an entity to disclose current-period gross write-offs by year of origination for financing receivables and net investments in leases within the scope of Subtopic 326-20, *Financial Instruments - Credit Losses - Measured at Amortized Cost*. The amendments in this update are effective for fiscal years beginning after December 15, 2022, including interim periods within those fiscal years, and are applied prospectively, except with respect to the recognition and measurement of TDRs, where an entity has the option to apply a modified retrospective transition method. Early adoption of the amendments in this update is permitted.

As of January 1, 2023, the Company adopted FASB ASU No. 2022-02, which superseded the current disclosure requirements for TDRs.

In March 2022, the FASB issued ASU No. 2023-07, *Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures*. The amendments in this update improve reportable segment disclosure requirements, primarily through enhanced disclosures about significant segment expenses. The Corporation adopted the amendments in this update on December 31, 2024.

Allowance for Credit Losses on Loans

The allowance for credit losses (ACL) is an estimate of the expected credit losses on the loans held for investment. Loan losses are charged against the ACL when management believes the uncollectibility of a loan balance is confirmed. Subsequent recoveries, if any, are credited to the ACL.

The ACL methodology consists of measuring loans on a collective (pool) basis when similar characteristics exist. The Company has identified five loan portfolio segments and measures the ACL using the scaled CECL allowance for losses estimator (SCALE) method. The loan portfolios are construction and land real estate, commercial real estate, residential real estate, commercial, and other consumer loans. The SCALE method uses publicly available data from Schedule RI-C of the call report to derive the initial proxy expected lifetime loss rates. These proxy expected lifetime loss rates are then adjusted for bank-specific facts and circumstances to arrive at the final ACL estimate that adequately reflects the Company's loss history and credit risk within the loan portfolio.

Note 2 - Significant Accounting Policies (Continued)

The qualitative factors considered for application to each loan portfolio consist of the impact of other internal and external qualitative and credit market factors as assessed by management through a detailed loan review, ACL analysis, and credit discussions. These internal and external qualitative and credit market factors include the following:

- Changes in lending policies and procedures, including changes in underwriting standards and collections, charge-offs, and recovery practices
- Changes in national, regional, and local conditions
- Changes in the nature and volume of the portfolio and terms of loans
- Changes in the experience, depth, and ability of lending management
- Changes in the volume and severity of past-due loans and other similar conditions
- Changes in the quality of the Bank's loan review system
- Changes in the value of underlying collateral for collateral dependent loans
- The existence and effect of any concentrations of credit and changes in the levels of such concentrations
- The effect of other external factors (i.e., competition, legal, and regulatory requirements) on the level of estimated credit

The impact of the above-listed internal and external qualitative and credit market risk factors is assessed within predetermined ranges to adjust the ACL totals calculated. In addition to the pooled analysis performed for the majority of the Company's loan balances, the Company also reviews loans that have collateral dependency or nonperforming status, which requires a specific review of that loan, per the Company's individually analyzed CECL calculations.

Other Real Estate Owned

Assets acquired through, or in lieu of, loan foreclosure are held for sale and are initially recorded at the fair value of the real estate, less estimated costs to sell, at the date of the foreclosure, establishing a new cost basis. Subsequent to foreclosure, valuations are periodically performed by management, and write-downs required by changes in estimated fair value are charged to earnings through a valuation allowance and reported in other noninterest expenses. Revenue and expenses from operations are also included in other noninterest expenses.

Office Properties and Equipment

Land is carried at cost. Buildings and equipment are carried at cost, less accumulated depreciation, computed on the straight-line method over the estimated useful lives of the assets. Construction in progress and related costs are capitalized and are not depreciated until placed into service. Useful lives are 25 to 49 years for office properties and 3 to 10 years for furniture, fixtures, and equipment.

Bank-owned Life Insurance

The Bank has purchased life insurance policies on certain of its key employees and directors. Bank-owned life insurance is recorded at its cash surrender value, or the amount that can be realized immediately upon liquidation of the policies.

Note 2 - Significant Accounting Policies (Continued)

Mortgage Servicing Rights

The Company generally retains the right to service mortgage loans sold to others. The mortgage servicing rights have been recognized as a separate asset and are being amortized into noninterest income in proportion to, and over the period of, the estimated future net servicing income using a method that approximates a level yield and taking into consideration prepayment of the underlying loans. Mortgage servicing rights are periodically evaluated for impairment based on the fair value of those rights. Fair values are estimated using discounted cash flows based on current market rates of interest. The carrying value of the Company's mortgage servicing rights, in relation to estimated servicing values, and the related amortization are reviewed by management on a quarterly basis. See Note 5 for a discussion of the current year's impact on the Company's financial position and results of operations.

Income Taxes

Deferred income tax assets and liabilities are determined using the liability (or balance sheet) method. Under this method, the net deferred tax asset or liability is determined based on the tax effects of the various temporary differences between the book and tax bases of the various balance sheet assets and liabilities and gives current recognition to changes in tax rates and laws.

At December 31, 2024 and 2023, the Company evaluated tax positions taken for filing with the Internal Revenue Service and all state jurisdictions in which it operates. The Company believes that income tax filing positions will be sustained under examination and does not anticipate any adjustments that would result in a material adverse effect on the Company's financial condition, results of operations, or cash flows. Accordingly, the Company has not recorded any reserves or related accruals for interest and penalties for uncertain tax positions at December 31, 2024 and 2023.

Comprehensive Income

Accounting principles generally require that recognized revenue, expenses, gains, and losses be included in net income. Although certain changes in assets and liabilities, such as unrealized gains and losses on available-for-sale securities, are reported as a separate component of the equity section of the consolidated balance sheet, such items, along with net income, are components of comprehensive income.

Transfers of Financial Assets

Transfers of financial assets are accounted for as sales when control over the assets has been surrendered. Control over transferred assets is deemed to be surrendered when (1) the assets have been isolated from the Company, (2) the transferee obtains the right (free of conditions that constrain it from taking advantage of the right) to pledge or exchange the transferred assets, and (3) the Company does not maintain effective control over the transferred assets through an agreement to repurchase them before their maturity.

Off-balance-sheet Instruments

In the ordinary course of business, the Company has entered into commitments under commercial letters of credit and standby letters of credit. Such financial instruments are recorded when they are funded.

Stock Options

The Company measures the cost of employee services received in exchange for equity awards, including shares under employee stock purchase plans, stock options, restricted stock, and stock appreciation rights, based on the calculated grant-date fair value of the awards. The cost is recognized as compensation expense over the vesting period of the awards.

(all amounts in thousands unless otherwise noted)

Note 2 - Significant Accounting Policies (Continued)

Treasury Stock

Common shares repurchased are recorded at cost. Cost of shares reissued is determined using the weighted-average method.

Earnings per Share

Basic earnings per share are computed by dividing net income by the weighted-average number of shares outstanding during each year. Stock options and restricted stock awards are regarded as future common stock and are considered in the earnings per share calculations and are the only other adjustments made in computing diluted earnings per share. See Note 14 for further details.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including February 7, 2025, which is the date the financial statements were available to be issued.

Note 3 - Investment Securities - Available for Sale

The amortized cost and estimated fair value of investment securities, with gross unrealized gains and losses as of December 31, are as follows:

	2024			
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value
Mortgage-backed securities	$ 12,583	$ 1	$ (966)	$ 11,618
Municipal bonds	3,287	-	(378)	2,909
Collateralized mortgage obligations	454	-	(8)	446
Total	$ 16,324	$ 1	$ (1,352)	$ 14,973

	2023			
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value
Mortgage-backed securities	$ 11,949	$ 8	$ (957)	$ 11,000
Municipal bonds	3,315	-	(315)	3,000
Total	$ 15,264	$ 8	$ (1,272)	$ 14,000

As of December 31, 2024, all municipal bonds have a contractual maturity ranging from 5 years through 10 years.

At December 31, 2024 and 2023, there were no investment securities pledged for any purpose.

For the years ended December 31, 2024 and 2023, there were no sales of investment securities. Accordingly, there were no gross realized gains or losses on the sale of securities for the years ended December 31, 2024 and 2023.

(all amounts in thousands unless otherwise noted)

Note 3 - Investment Securities - Available for Sale (Continued)

There were 59 and 71 investment securities in an unrealized loss position as of December 31, 2024 and 2023, respectively. Information pertaining to investment securities with gross unrealized losses at December 31, 2024 and 2023, aggregated by length of time that individual securities have been in a continuous loss position, is as follows:

	2024					
	Less Than 12 Months		12 Months or Greater		Total	
	Unrealized Losses	Estimated Fair Value	Unrealized Losses	Estimated Fair Value	Unrealized Losses	Estimated Fair Value
Mortgage-backed securities	$ (22)	$ 3,720	$ (944)	$ 7,280	$ (966)	$ 11,000
Municipal bonds	-	-	(378)	2,909	(378)	2,909
Collateralized mortgage obligations	(8)	446	-	-	(8)	446
Total	$ (30)	$ 4,166	$ (1,322)	$ 10,189	$ (1,352)	$ 14,355

	2023					
	Less Than 12 Months		12 Months or Greater		Total	
	Unrealized Losses	Estimated Fair Value	Unrealized Losses	Estimated Fair Value	Unrealized Losses	Estimated Fair Value
Mortgage-backed securities	$ (13)	$ 1,565	$ (944)	$ 8,606	$ (957)	$ 10,171
Municipal bonds	-	-	(315)	3,000	(315)	3,000
Total	$ (13)	$ 1,565	$ (1,259)	$ 11,606	$ (1,272)	$ 13,171

There were no securities with identified credit losses at December 31, 2024 and 2023, respectively. Unrealized losses on investment securities have not been recognized into income because the issuers' bonds are of high credit quality, the Company has the intent and ability to hold the investment securities for the foreseeable future, and the declines in fair value are primarily due to increased market interest rates and market volatility. The fair value is expected to recover as the bonds approach their maturity dates.

Included in mortgage-backed securities are agency issued and government-sponsored enterprise issued mortgage-backed securities. Agency-issued securities are generally guaranteed by a U.S. government agency, such as the Government National Mortgage Association. Government-sponsored enterprises, such as the Federal Home Loan Mortgage Corporation or the Federal National Mortgage Association, have an implied guarantee by the U.S. government. The municipal bond portfolio consists of highly rated securities issued in the State of Indiana, which include credit enhancement insurance. All are rated A or better, all have made payments as agreed, and there is no other evidence of significant deterioration in the underlying issuers’ financial positions. The Company evaluated whether the unrealized losses in the investment portfolio were a result of credit losses or other factors and concluded the unrealized losses were the result of other market conditions, and, therefore, no credit losses were identified.

(all amounts in thousands unless otherwise noted)

Note 4 - Loans and Allowance for Credit Losses

A summary of loans by loan segment as of December 31, 2024 and 2023 is as follows:

	2024	2023
Residential real estate	$ 93,456	$ 96,847
Commercial real estate	123,248	118,126
Construction and land - Real estate	27,161	40,127
Other consumer	1,219	1,287
Commercial business loans	40,275	42,081
Total loans	285,359	298,468
Less allowance for credit losses	3,235	3,335
Net loans	$ 282,124	$ 295,133

In the ordinary course of business, the Company has granted loans to principal officers and directors and their affiliates amounting to approximately $1,010 and $1,446 as of the years ended December 31, 2024 and 2023, respectively. Such loans are made on substantially the same terms as those for other loan customers.

The Company's activity in the allowance for credit losses for the years ended December 31, 2024 and 2023, by loan segment, is summarized below:

	Year Ended December 31, 2024				
	Beginning Balance	Charge-offs	Recoveries	Provision	Ending Balance
Allowance for credit losses:					
Residential real estate	$ 858	$ -	$ 62	$ (67)	$ 853
Commercial real estate	1,447	-	-	(31)	1,416
Construction and land - Real estate	611	-	-	(182)	429
Other consumer	25	-	-	1	26
Commercial business loans	394	-	-	117	511
Total	$ 3,335	$ -	$ 62	$ (162)	$ 3,235

	Year Ended December 31, 2023					
	Beginning Balance	Adoption of ASC 326	Charge-offs	Recoveries	Provision	Ending Balance
Allowance for credit losses:						
Residential real estate	$ 561	$ 276	$ -	$ 82	$ (61)	$ 858
Commercial real estate	1,357	(150)	(3)	3	240	1,447
Construction and land - Real estate	366	159	-	-	86	611
Other consumer	6	11	(3)	-	11	25
Commercial business loans	369	(24)	-	-	49	394
Total	$ 2,659	$ 272	$ (6)	$ 85	$ 325	$ 3,335

(all amounts in thousands unless otherwise noted)

Note 4 - Loans and Allowance for Credit Losses (Continued)

The following tables present the amortized cost basis of collateral-dependent loans by collateral type and loan segment:

	Year Ended December 31, 2024		
	Real Estate	Other	ACL Allocated
Residential real estate	$ 989	$ -	$ -
Commercial real estate	401	-	-
Construction and land - Real estate	871	-	-
Commercial business loans	-	74	74
Total	$ 2,261	$ 74	$ 74

	Year Ended December 31, 2023		
	Real Estate	Other	ACL Allocated
Residential real estate	$ 908	$ -	$ -
Commercial real estate	232	-	-
Construction and land - Real estate	988	-	-
Other consumer	-	28	-
Total	$ 2,128	$ 28	$ -

Credit Quality Disclosures

The Company categorized each loan into credit risk categories based on current financial information, overall debt service coverage, comparison against industry averages, collateral coverage, historical payment experience, and current economic trends. The Company uses the following definitions for credit risk ratings:

Pass

Credits not covered by the below definitions are pass credits, which are not considered to be adversely rated.

Watch

Loans classified as special mention, or watch credits, have a potential weakness or weaknesses that deserve management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the loan or of the institution's credit position at some future date.

Substandard

Loans classified as substandard are inadequately protected by the current net worth and paying capacity of the obligor or of the collateral pledged, if any. Loans so classified have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. They are characterized by the distinct possibility that the institution may sustain some loss if the deficiencies are not corrected.

Doubtful

Loans classified as doubtful have all the weaknesses inherent in those classified as substandard, with the added characteristics that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions, and values, highly questionable and improbable.

(all amounts in thousands unless otherwise noted)

Note 4 - Loans and Allowance for Credit Losses (Continued)

The following tables present the credit risk profile of the Company's loan portfolio based on risk rating category and year of origination as of December 31, 2024 and 2023:

	As of December 31, 2024							
	Term Loans Amortized Cost Basis by Origination Year

There were no revolving loans converted to term loans as of December 31, 2024 and 2023.

There were no charge-offs during the period ended December 31, 2024. Gross charge-offs of $3 during the year ended December 31, 2023 occurred in the commercial real estate loan segment.

(all amounts in thousands unless otherwise noted)

Note 4 - Loans and Allowance for Credit Losses (Continued)

Age Analysis of Past Due Loans

The Company's age analysis of past due loans at December 31, 2024 and 2023, by loan segment, is summarized below:

	December 31, 2024				
	30-89 Days Past Due	90 or More Days Past Due and Accruing	Total	Current	Total Loans
Residential real estate	$ 1,665	$ -	$ 1,665	$ 91,791	$ 93,456
Commercial real estate	1,518	-	1,518	121,730	123,248

Commercial business loans	-	74	-	-	-	-
Total	$ 2,262	$ 2,336	$ 125	$ 2,155	$ 2,155	$ 97

(all amounts in thousands unless otherwise noted)

Note 4 - Loans and Allowance for Credit Losses (Continued)

The Company may grant concessions on loans to borrowers experiencing financial difficulty by providing modifications to repayment terms; more specifically, modifcations to loan interest rates.

As of January 1, 2023, the Company adopted ASU No. 2022-02, *Financial Instruments - Credit Losses (Topic 326): Troubled Debt Restructuring and Vintage Disclosures* (see Note 1). There were no modifications on loans to borrowers experiencing financial difficulty during the years ended December 31, 2024 and 2023.

Note 5 - Loan Servicing

The Bank will, from time to time, sell loans to the Federal Home Loan Bank of Indianapolis. As such, the Bank may designate a portion of the loan portfolio to be classified as held for sale. There was $221 and $292 in loans classified as held for sale at December 31, 2024 and 2023, respectively. During the years ended December 31, 2024 and 2023, the Bank sold first mortgage loans approximating $22,000 and $25,000, respectively, to the FHLB and recognized gains of approximately $233 and $231, respectively.

The Company retains the servicing on loans sold to the FHLB and recognized a gain of approximately $121 and $145 for the years ended December 31, 2024 and 2023, respectively, from the establishment of a mortgage servicing right asset. The carrying value of the Company's mortgage servicing rights was approximately $781 and $898 at December 31, 2024 and 2023, respectively, and included within prepaid expenses and other assets on the consolidated balance sheet. During the years ended December 31, 2024 and 2023, the Company amortized approximately $255 and $239, respectively, of mortgage servicing rights against current servicing fee income.

Loans serviced for the FHLB amounted to approximately $203,407 and $200,064 at December 31, 2024 and 2023, respectively. The fair value of the mortgage servicing rights related to these loans was approximately $2,401 and $2,411 at December 31, 2024 and 2023, respectively. The fair value of these servicing rights was determined using a discount rate of 10.0 percent as of December 31, 2024 and 2023. Conditional prepayment rates (CPR) ranged from 9.00 percent to 18.6 percent and 9.00 percent to 21.30 percent as of December 31, 2024 and 2023, respectively.

Note 6 - Office Properties and Equipment

A summary of the cost and accumulated depreciation of office properties and equipment at December 31, 2024 and 2023 is as follows:

	2024	2023
Land	$ 1,166	$ 1,166
Buildings and building improvements	12,212	12,127
Furniture, fixtures, and equipment	2,923	2,826
Total cost	16,301	16,119
Accumulated depreciation	(7,148)	(6,679)
Net office properties and equipment	$ 9,153	$ 9,440

Depreciation expense for 2024 and 2023 totaled $503 and $494, respectively.

(all amounts in thousands unless otherwise noted)

Note 6 - Office Properties and Equipment (Continued)

The Bank owns all of its office locations and currently leases office space to unrelated third-party tenants at its Dyer and Schererville, Indiana offices. As of December 31, 2024, the Dyer, Indiana office location leased office and parking space to third-party tenants at an annual rent of approximately $201 under lease agreements that terminate in 2025. The Schererville, Indiana office location leased office and storage space to third-party tenants at an annual rent of approximately $64 under lease agreements that terminate in 2025.

Note 7 - Deposits

The following is a summary of the distribution of deposits at December 31, 2024 and 2023:

	2024	2023
Passbook accounts	$ 26,631	$ 26,779
Demand deposits and NOW accounts	189,761	185,535
Money market accounts	29,528	7,533
Certificates of deposit:		
Under $250,000	59,802	53,837
$250,000 and over	30,331	26,747
Total	$ 336,053	$ 300,431

At December 31, 2024, the scheduled maturities of time deposits are as follows:

Years Ending	Amount
2025	$ 86,361
2026	3,425
2027	261
2028	86
Total	$ 90,133

As of December 31, 2024 and 2023, deposit balances from officers and directors of the Company totaled approximately $2,609 and $2,227, respectively.

Note 8 - Borrowed Funds

The Company has advances from the Federal Home Loan Bank of Indianapolis totaling $0 and $17,000 at December 31, 2024 and 2023, respectively.The Bank has adopted a collateral pledge agreement where the Bank has agreed to keep on hand at all times, free of all other pledges, liens, and encumbrances, first mortgages and qualifying second mortgages on one-to-four family, multifamily, and nonresidential real estate, with unpaid principal balances aggregating no less than 150 percent of the outstanding secured advances from the FHLB. The outstanding balance of the qualifying loans pledged as collateral to the FHLB at December 31, 2024 and 2023 was approximately $137,963 and $146,857, respectively. At December 31, 2024 and 2023, no securities were pledged for these borrowings.

At December 31, 2024, the Company had available $10,000 of unsecured overnight federal funds borrowing capability from third-party sources. In addition to the unsecured overnight federal funds, the Company maintains a $5,000 line of credit with the Federal Home Loan Bank of Indianapolis. There was no outstanding balance on these lines as of December 31, 2024 or 2023.

Note 9 - Guaranteed Preferred Beneficial Interest in Junior Subordinated Debentures

In 2007, the Company issued $3,000 of junior subordinated debentures (the "2007 debentures") to AMB Financial Statutory Trust II. The 2007 debentures are the sole assets of this trust, which issued common securities to the Company and preferred capital securities to third-party investors. The 2007 debentures bear interest at a fixed rate of 6.55 percent, payable quarterly in arrears, for the first five years and then bear interest at a rate of the three-month LIBOR plus 1.65 percent thereafter. These debentures are noncallable for five years and, after that period, are redeemable at par plus accrued unpaid interest, in whole or in part. The 2007 debentures have a scheduled maturity date of June 15, 2037. These debentures were repriced to LIBOR plus 1.65 percent on March 15, 2012. The three-month LIBOR interest index was replaced by the three-month SOFR in 2023, and the interest rate is the three-month SOFR plus 1.65 percent going forward. The interest rate in effect as of December 31, 2024 and 2023 is 6.27 percent and 7.30 percent, respectively.

The trust-preferred securities are issues that qualify and are treated by the Company as Tier I regulatory capital. The Company wholly owns all of the common securities of the trust. The trust-preferred securities issued by the trust rank equally with the common securities in right of payment except that, if an event of default under the indenture governing the debentures has occurred and is continuing, the preferred securities will rank senior to the common securities in right of payment.

At December 31, 2024, the Company is current on interest payments due to the holders of the junior subordinated debentures.

Note 10 - Employee Benefit Plans

The Bank participates in the Pentegra Defined Benefit Plan for Financial Institutions (the "Pentegra DB Plan”), a tax-qualified defined benefit pension plan. The Pentegra DB Plan's employer identification number is 13-5645888, and its plan number is 333. The Pentegra DB Plan operates as a multiemployer plan for accounting purposes and as a multiple-employer plan under the Employee Retirement Income Security Act of 1974 and the Internal Revenue Code. There are no collective bargaining agreements in place that require contributions to the Pentegra DB Plan.

The Pentegra DB Plan is a single plan under Internal Revenue Code Section 413(c), and, as a result, all of the assets stand behind all of the liabilities. Accordingly, under the Pentegra DB Plan, contributions made by a participating employer may be used to provide benefits to participants of other participating employers.

Full-time employees of the Bank who had attained at least 21 years of age and completed one year of service were eligible to participate in the Pentegra DB Plan. Effective June 1, 2014, any employee hired on or after June 1, 2014 shall not become eligible to participate or to accrue benefits under the Pentegra DB Plan. In addition, eligible employees as of May 31, 2014 shall continue to participate in the Pentegra DB Plan under the plan provisions, as adopted and amended by the Bank.

Calculations to determine full-funding status of the Pentegra DB Plan are made annually by the third-party plan administrator as of June 30. As of July 1, 2024 and 2023, the MAP 21 funding target, which is defined as the market value of plan assets divided by the plan liabilities of the Bank's portion of the Pentegra DB Plan, was 127.12 percent and 124.26 percent, respectively. As of July 1, 2024 and 2023, the Pre-MAP 21 funding target was 123.13 percent and 105.43 percent, respectively.

Contributions to the Pentegra DB Plan paid by the Bank during the years ended December 31, 2024 and 2023 amounted to approximately $424 and $462, respectively. The Bank's contributions to the Pentegra DB Plan are no more than 5 percent of the total contributions to the Pentegra DB Plan. Pension expense for the years ended December 31, 2024 and 2023 amounted to $443 and $481, respectively.

(all amounts in thousands unless otherwise noted)

Note 10 - Employee Benefit Plans (Continued)

The Bank participates in the Pentegra Thrift Plan, which qualifies under Section 401(k) of the Internal Revenue Code and covers substantially all employees. This plan calls for a discretionary contribution within specified limits and a matching bank contribution. During 2023, the matching contribution was updated from 25 percent of the first 6 percent of the employee contributions to 50 percent of the first 6 percent of the employee contributions. Plan expense for the years ended December 31, 2024 and 2023 amounted to $71 and $49, respectively.

The Bank also has established three nonqualified 401(k) plans providing participating officers of the Bank the opportunity to defer up to 6 percent of their salaries into a tax deferred accumulation for future retirement. In addition, the Bank has also established a director deferral plan. Generally, all deferred nonqualified 401(k) plan contributions and deferred director fees are credited with interest from the Bank at the rate of 10 percent per year. Interest credited by the Bank to the nonqualified plans and deferred director fees on accumulated funds was $92 and $90 for the years ended December 31, 2024 and 2023, respectively. Total accumulation of funds for the nonqualified plans and deferred director fees were $938 and $917 as of December 31, 2024 and 2023, respectively.

Note 11 - Director, Officer, and Employee Plans

2017 Equity Incentive Plan

The Company's 2017 equity incentive plan (the "Incentive Plan") was adopted by the Company's board of directors on April 19, 2017 and approved by the Company's stockholders on April 19, 2017. The Incentive Plan permits the grant of equity awards for up to 98,000 shares of common stock. Awards granted under the Incentive Plan may be in the form of incentive stock options, nonqualified stock options, or restricted stock. Option awards are generally granted with an exercise price equal to the market price of the Company's common stock at the date of grant. There was approximately $44 and $45 of expense charged against income for incentive stock options and nonqualified stock options during 2024 and 2023, respectively. There was approximately $40 and $57 of expense charged against income for restricted stock during 2024 and 2023, respectively.

A summary of the Company's stock option activity for the years ended December 31, 2024 and 2023 is presented below:

Options	Number of Options	Weighted-average Exercise Price	Weighted-average Remaining Contractual Term (in Years)	Aggregate Intrinsic Value
Outstanding at January 1, 2023	73,500	$ 17.16	4.58	$ 282.00
Outstanding at December 31, 2023	73,500	17.16	3.58	93.00
Outstanding at January 1, 2024	73,500	17.16	3.58	93.00
Outstanding at December 31, 2024	73,500	17.16	2.58	227.00

As of December 31, 2024 and 2023, there was approximately $59 and $89, respectively, in unrecognized compensation costs related to nonvested incentive stock options and nonqualified stock options under the Incentive Plan. The cost is expected to be recognized over a weighted-average period of 2.25 years.

(all amounts in thousands unless otherwise noted)

Note 11 - Director, Officer, and Employee Plans (Continued)

Restricted stock awards are generally granted with an award price equal to the market price of the Company's common stock on the award date. Restricted stock awards have been issued with a 6- to 10-year vesting period. Forfeiture provisions exist for personnel who separate employment before the vesting period expires. Compensation expense related to restricted stock awards is recognized over the vesting period.

There were no stock awards granted during 2024 and 2023. There were 1,916 and 3,211 vested during 2024 and 2023, respectively. There were 280 restricted stock awards forfeited during 2024 and no restricted stock awards forfeited during 2023. There were 5,742 and 7,938 restricted stock awards outstanding at December 31, 2024 and 2023, respectively.

As of December 31, 2024 and 2023, there was approximately $72 and $104, respectively, in unrecognized compensation costs related to nonvested restricted stock awards under the Incentive Plan. The cost is expected to be recognized over a weighted-average period of 2.58 years.

Employee Stock Ownership Plan (ESOP)

The ESOP is a qualified deferred compensation plan funded by contributions from the Bank. Contributions to the ESOP are at the discretion of the board of directors and are used to purchase shares of the Company's common stock. All employees over the age of 18 meeting minimum service requirements are eligible to participate in the plan. Employee contributions are not permitted. Plan contributions charged to expense totaled $60,000 for both years ended December 31, 2024 and 2023. Eligible employees were vested in their proportionate shares of ESOP contributions at December 31, 2024.

Note 12 - Income Taxes

The details of the net deferred tax asset are as follows:

	2024	2023
Deferred tax assets:		
Deferred compensation for officers	$ 220	$ 216
Allowance for credit losses	805	829
Allowance for uncollected interest	56	94
Allowance for loss on mortgage loan sales	1	1
Deferred interest and charges on modified loans	9	10
Unrealized loss on available-for-sale securities	334	314
Other	86	106
Total deferred tax assets	1,511	1,570
Deferred tax liabilities:		
Accelerated tax depreciation	(631)	(642)
FHLB stock dividend	(20)	(20)
Prepaid pension expense	(53)	(58)
Mortgage servicing rights	(194)	(223)
Other	(67)	(117)
Total deferred tax liabilities	(965)	(1,060)
Net deferred tax asset	$ 546	$ 510

(all amounts in thousands unless otherwise noted)

Note 12 - Income Taxes (Continued)

The allocation of income taxes between current and deferred portions is as follows:

	2024	2023
Current	$ 807	$ 993
Deferred	16	(269)
Total income tax expense	$ 823	$ 724

The allocation of income taxes between federal and state portions is as follows:

	2024	2023
Federal	$ 691	$ 595
State	132	129
Total	$ 823	$ 724

The reasons for the differences between the income tax expense at the federal statutory income tax rate and the recorded income tax expense are summarized as follows:

	2024	2023
Income before income taxes	$ 3,281	$ 2,913
Income tax expense at federal statutory rate	689	612
State income taxes - Net of federal income tax expense	127	113
Increase resulting from permanent differences	17	1
Other	(10)	(2)
Total	$ 823	$ 724

Retained earnings at December 31, 2024 include approximately $1,950 of tax bad debt reserves for which no provision for income taxes has been recorded. This amount represents earnings legally appropriated to bad debt reserves and deducted for federal income tax purposes and is generally not available for payment of cash dividends by the Bank or other distributions to stockholders of the Bank. If in the future this amount, or a portion thereof, is used for certain purposes other than to absorb losses on bad debts, an income tax liability will be imposed on the amount so used at the then-current corporate income tax rate. If deferred taxes were required to be provided on this item, the amount of this deferred tax liability would be approximately $780.

Note 13 - Minimum Regulatory Capital Requirements

The Bank is subject to various regulatory capital requirements administered by the federal banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory and possibly additional discretionary actions by regulators that, if undertaken, could have a direct material effect on the Bank's financial statements. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, the Bank must meet specific capital guidelines that involve quantitative measures of its assets, liabilities, and certain off-balance-sheet items, as calculated under regulatory accounting practices. The capital amounts and classifications are also subject to qualitative judgments by the regulators about components, risk weightings, and other factors.

The Bank may not declare or pay cash dividends on or repurchase any of its shares of common stock if the effect thereof would cause stockholders' equity to be reduced below applicable regulatory capital maintenance requirements or if such declaration and payment would otherwise violate regulatory requirements.

(all amounts in thousands unless otherwise noted)

Note 13 - Minimum Regulatory Capital Requirements (Continued)

Quantitative measures established by regulation to ensure capital adequacy require the Bank to maintain minimum amounts and ratios (set forth in the following table) of total, common, and Tier 1 capital (as defined in the regulations) to risk-weighted assets (as defined) and of Tier 1 capital (as defined) to average assets (as defined). Management believes, as of December 31, 2024 and 2023, that the Bank met all capital adequacy requirements to which it is subject.

As of December 31, 2024, the Bank was categorized as well capitalized under the regulatory framework for prompt corrective action. To be categorized as well capitalized, an institution must maintain minimum total risk-based, common equity Tier 1 risk-based, Tier 1 risk-based, and Tier 1 leverage ratios, as set forth in the following table. There are no conditions or events since the notification that management believes have changed the Bank's category. At December 31, 2024, the Bank's average total assets were approximately $370,074, and its risk-weighted assets were approximately $288,677. The Bank's actual capital amounts and ratios as of December 31, 2024 and 2023 are also presented in the table.

This table does not include the 2.5 percent capital conservation buffer requirement. A bank with a capital conservation buffer greater than 2.5 percent of risk-weighted assets would not be restricted by payout limitations. However, if the 2.5 percent threshold is not met, the bank would be subject to increasing limitations on capital distributions and discretionary bonus payments to executive officers as the capital conservation buffer approaches zero.

	Actual		Minimum for Capital Adequacy Purposes		To be Well Capitalized Under Prompt Corrective Action Provisions	
	Amount	Ratio	Amount	Ratio	Amount	Ratio
As of December 31, 2024						
Common equity Tier 1 capital (to risk-weighted assets)	$ 32,557	11.28 %	$ 12,990	4.50 %	$ 18,764	6.50 %
Total risk-based capital (to risk-weighted assets)	36,067	12.49	23,094	8.00	28,868	10.00
Tier 1 capital (to risk-weighted assets)	32,557	11.28	17,321	6.00	23,094	8.00
Tier 1 capital (to average assets)	32,557	8.80	14,803	4.00	18,504	5.00
As of December 31, 2023						
Common equity Tier 1 capital (to risk-weighted assets)	30,526	10.33	13,299	4.50	19,210	6.50
Total risk-based capital (to risk-weighted assets)	34,220	11.58	23,643	8.00	29,554	10.00
Tier 1 capital (to risk-weighted assets)	30,526	10.33	17,732	6.00	23,643	8.00
Tier 1 capital (to adjusted total assets)	30,526	9.22	13,249	4.00	16,562	5.00

(all amounts in thousands unless otherwise noted)

Note 14 - Earnings per Share

Earnings per share are based on the weighted-average number of common shares outstanding during the year. Basic and diluted earnings per share attributable to the Company's stockholders are as follows:

	2024	2023
Net income available to common stockholders	$ 2,458	$ 2,189
Weighted-average number of common shares outstanding used in basic EPS calculation	897,459	904,795
Basic earnings per common share	$ 2.74	$ 2.42
Weighted-average common shares and equivalents outstanding for diluted computation	900,687	908,928
Diluted earnings per common share	$ 2.73	$ 2.41

Note 15 - Financial Instruments with Off-balance-sheet Risk

The Bank is a party to various financial instruments with off-balance-sheet risk in the normal course of business. These instruments are primarily commitments to originate loans and to extend credit on previously approved unused lines of credit. These financial instruments carry varying degrees of credit and interest rate risk in excess of amounts recorded in the consolidated financial statements.

Commitments to originate mortgage loans of approximately $3,745 and $4,243 at December 31, 2024 and 2023, respectively, represent amounts that the Bank plans to fund within the normal commitment period of 60 to 90 days. These commitments are at fixed rates ranging from 6.375 percent to 7.50 percent and 3.99 percent to 9.38 percent at December 31, 2024 and 2023, respectively. Because the creditworthiness of each customer is reviewed prior to extension of a loan commitment, the Bank adequately controls its credit risk on loan commitments, as it does for loans recorded on the consolidated balance sheet.

The Bank has approved but unused home equity lines of credit of approximately $17,616 and $18,966 at December 31, 2024 and 2023, respectively. In addition, the Bank has approved but unused equity lines of credit on various construction and commercial projects of approximately $6,153 and $14,976 at December 31, 2024 and 2023, respectively. The Bank also has approved but unused business non-real estate lines of credit of approximately $16,545 and $16,926 at December 31, 2024 and 2023, respectively.

The Bank has also issued outstanding letters of credit on behalf of third parties totaling approximately $4,268 and $4,789 at December 31, 2024 and 2023, respectively.

The Bank recorded a reserve for the liability for credit losses inherent in unfunded loan commitments of $275 and $365 as of December 31, 2024 and 2023, respectively, within other liabilities on the consolidated balance sheet.

Note 16 - Contingencies

The Bank is, from time to time, a party to certain lawsuits in the ordinary course of its business, including where it enforces its loan security interest. Management believes that the Company and the Bank are not engaged at legal proceedings of a material nature at the present time.

Note 17 - Fair Value of Financial Instruments

The fair value of a financial instrument is the current amount that would be exchanged between willing parties, other than in a forced liquidation. Fair value is best determined based upon quoted market prices; however, in many instances, there are no quoted market prices for the Company's various financial instruments. In cases where quoted market prices are not available, fair values are based on estimates using present value or other valuation techniques. Those techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows. Accordingly, the fair value estimates may not be realized in an immediate settlement of the instrument. Fair value accounting standards exclude certain financial instruments and all nonfinancial instruments from their disclosure requirements. Accordingly, the aggregate fair value amounts presented may not necessarily represent the underlying fair value of the Company.

The following methods and assumptions were used by the Company in estimating fair value disclosures for financial instruments:

Cash and Amounts Due from Depository Institutions

The carrying amounts of cash and amounts due from depository institutions approximate fair value.

Interest-bearing Deposits in Other Depository Institutions

The carrying amounts of interest-bearing deposits in other depository institutions approximate fair value.

Investment Securities

Fair values for mortgage-backed securities are based on quoted market prices. If a quoted market price is not available, fair value is estimated using quoted market prices for similar securities.

Federal Home Loan Bank of Indianapolis Stock

The carrying value of the FHLB stock approximates fair value based on its redemption provisions.

Loans Held for Sale

Loans held for sale comprise residential mortgages and are priced based on outstanding commitments from investors.

Loans Receivable

For variable-rate loans that reprice frequently with no significant change in credit risk, fair values are based on carrying values. Fair values for other loans are estimated using discounted cash flow analyses that use interest rates currently being offered for loans with similar terms to borrowers of similar credit quality. Fair values of nonperforming loans are estimated using discounted cash flow analyses or underlying collateral values, where applicable.

Accrued Interest Receivable and Payable

The carrying amounts of accrued interest approximate fair value.

Deposits

The fair values disclosed for demand deposits are, by definition, equal to the amount payable on demand at the reporting date (i.e., their carrying amounts). The carrying amounts of variable-rate, fixed-term money market accounts and certificates of deposit approximate their fair values at the reporting date. Fair values for fixed-rate certificates of deposit are estimated using a discounted cash flow calculation that applies interest rates currently being offered on certificates to a schedule of aggregated expected monthly maturities on time deposits.

(all amounts in thousands unless otherwise noted)

Note 17 - Fair Value of Financial Instruments (Continued)

Borrowed Funds

The fair values of the Company's other borrowings are estimated using discounted cash flow analyses based on the Company's current incremental borrowing rates for similar types of borrowing arrangements.

Junior Subordinated Debentures

For variable-rate junior subordinated debentures that reprice frequently, fair values are based on carrying values.

Other Financial Instruments

The fair value of other financial instruments, including loan commitments and unfunded letters of credit, based on discounted cash flow analyses, is not material.

The carrying amounts and estimated fair values of the Company's financial instruments as of December 31, 2024 and 2023 are as follows:

	2024		2023	
	Carrying Amount	Estimated Fair Value	Carrying Amount	Estimated Fair Value
Financial Assets				
Cash and cash equivalents	$ 56,539	$ 56,539	$ 23,041	$ 23,041
Investment securities - Available for sale	14,973	14,973	14,000	14,000
Federal Home Loan Bank stock	2,888	2,888	3,430	3,430
Loans held for sale	221	221	292	292
Loans receivable - Net	282,124	271,884	295,133	273,183
Accrued interest receivable	1,510	1,510	1,458	1,458
Financial Liabilities				
Deposits	336,053	312,543	300,431	280,943
Borrowed funds	-	-	17,000	17,020
Junior subordinated debentures	3,093	3,093	3,093	3,093
Accrued interest payable	51	51	23	23

Note 18 - Fair Value Measurements

The Company measures fair value according to ASC 820-10, *Fair Value Measurements and Disclosures*, which establishes a fair value hierarchy that prioritizes the inputs used in valuation techniques but not the valuation techniques themselves. ASC 820-10 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. There are three levels of inputs into the fair value hierarchy (Level 1 being the highest priority and Level 3 being the lowest priority):

Level 1

Unadjusted quoted prices for identical instruments in active markets.

Level 2

Quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-derived valuations whose inputs are observable or whose significant value drivers are observable.

(all amounts in thousands unless otherwise noted)

Note 18 - Fair Value Measurements (Continued)

Level 3

Instruments whose significant value drivers or assumptions are unobservable and that are significant to the fair value of the assets.

A financial instrument's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement.

The following tables set forth the Company's financial assets by level within the fair value hierarchy that were measured at fair value on a recurring basis at December 31, 2024 and 2023:

	Assets Measured at Fair Value on a Recurring Basis at December 31, 2024			
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Balance at December 31, 2024
December 31, 2024				
Investment securities - Available for sale:				
Mortgage-backed securities	$ -	$ 11,618	$ -	$ 11,618
Municipal bonds	-	2,909	-	2,909
Collateralized mortgage obligations	-	446	-	446
Loans held for sale	-	221	-	221
Total assets	$ -	$ 15,194	$ -	$ 15,194

	Assets Measured at Fair Value on a Recurring Basis at December 31, 2023			
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Balance at December 31, 2023
December 31, 2023				
Investment securities - Available for sale:				
Mortgage-backed securities	$ -	$ 11,000	$ -	$ 11,000
Municipal bonds	-	3,000	-	3,000
Loans held for sale	-	292	-	292
Total assets	$ -	$ 14,292	$ -	$ 14,292

Securities available for sale are measured at fair value on a recurring basis. Level 2 securities are valued by a third-party pricing service commonly used in the banking industry utilizing observable inputs. The pricing provider utilizes evaluated pricing models that vary based on asset class. These models incorporate available market information, including quoted prices of securities with similar characteristics, and, because many fixed-income securities do not trade on a daily basis, apply available information through processes such as benchmark curves, benchmarking of like securities, sector groupings, and matrix pricing. Changes in the fair market value of the Company's available-for-sale securities are recorded in other comprehensive (loss) income.

(all amounts in thousands unless otherwise noted)

Note 18 - Fair Value Measurements (Continued)

The Company has elected the fair value option for loans held for sale. These loans are intended for sale, and the Company believes that fair value is the best indicator of the resolution of these loans. Interest income is recorded based on the contractual terms of the loan and in accordance with the Company's policy on loans held for investment. None of the loans held for sale as of December 31, 2023 and 2024 were 90 days or more past due or on nonaccrual.

The Company also has assets that, under certain conditions, are subject to measurement at fair value on a nonrecurring basis. These assets include individually evlauated loans that are collateral dependent. The Company estimates the fair values of these assets based primarily on Level 3 inputs, which include the present value of expected future cash flows using management's best estimate of key assumptions. These assumptions include cash flow projections, discount rates, and recent comparable sales. The numerical range of observable inputs for these valuation assumptions is not meaningful.

The following tables set forth the Company's assets by level within the fair value hierarchy that were measured at fair value on a nonrecurring basis at December 31, 2024 and 2023:

	Assets Measured at Fair Value on a Nonrecurring Basis at December 31, 2024			
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Balance at December 31, 2024
Individually evaluated loans	$ -	$ -	$ 2,334	$ 2,334

	Assets Measured at Fair Value on a Nonrecurring Basis at December 31, 2023			
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Balance at December 31, 2023
Individually evaluated loans	$ -	$ -	$ 2,156	$ 2,156

Note 19 - Segment Information

The Company's reportable segment is determined by the chief financial officer, who is the designated chief operating decision maker, based upon information provided about the Bank's products and services offered, primarily banking operations. The segment is also distinguished by the level of information provided to the chief operating decision maker, who uses such information to review performance of various components of the business, such as subsidiary bank branches, which are then aggregated if operating performance, products and services, and customers are similar. The chief operating decision maker will evaluate the financial performance of the Company's business components by evaluating revenue streams, significant expenses, and budget to actual results in assessing the Company's segment and in the determination of allocating resources. The chief operating decision maker uses revenue streams to evaluate product pricing and significant expenses to assess performance and evaluate return on assets. The chief operating decision maker uses consolidated net income to benchmark the Company against its competitors. The benchmarking analysis coupled with monitoring of budget to actual results are used in assessment of performance and in establishing compensation. Loans, investments, and cash deposits provide the revenue in the banking operation. Interest expense, provisions for credit losses, and payroll provide the significant expenses in the banking operation.
